

# Challenge-1

Annette

2023-08-14

## Introduction

Hello, I am Annette, a Year 3 Economics student studying at NUS! I am very excited to learn new skills with R in this mod, and I hope that with consistent effort and practice I will perform decently for this mod! This file took a while to be correct but its all good now my first takeaway from this mod would be that ''' needs to be on a separate line!

```
